

Statement-Worthy Glass Storefront Systems

Pre-glazed storefront systems open new possibilities.

Stunning Storefronts

Pre-glazed impact storefront systems from Aldora are engineered to the highest design pressures, offer large panels and meet rigorous building codes. We also provide non-impact glass storefronts to suit building applications from car dealerships to shopping centers.

ONE LESS WORRY

Less fabrication labor with pre-glazed impact storefront products.

SIMPLE INSPECTIONS

Our products are Miami-Dade and/or Florida State building code approved. Factory fabrication ensures products comply with engineered approvals.

RELIABLE SUPPLY AND TROUBLESHOOTING

From consistent lead times and quality glass to project-specific problem solving, we help your project run right.

FS-300 SERIES

Versatile Solutions

With pre-glazed systems that are factory wet-sealed and a variety of energy-efficient glass options, Aldora can meet any custom project need.

- Hurricane resistance
- Theft protection
- Commercial and residential fixed windows
- Flood resistance (with external engineering)

Introducing RapidGlaze

Buy-in to dry-in, our end-to-end pre-glazing process delivers time savings and quality.

Why RapidGlaze?

Fast-track your build timelines and get higher quality systems, factory assembled to manufacturer specifications and glazed in a controlled environment.

QUALITY ADVANTAGES

Prevent leaks and install headaches with precision aluminum cutting and a controlled environment for frame sealant and silicone.

JOBSITE DELIVERY

Moffett-equipped trucks provide manpower and stage materials in front of openings.

EASY POSITIONING

Less handling, damage and safety risks with an optional all-terrain glass lifter.

3-Step Pre-glazing

We deliver it all with proven speed, quality and reduced labor time.

The RapidGlaze Difference

Shave up to 12 days off your build time with the RapidGlaze pre-glazing process.

Glass Glazing—Done and Delivered

From Buy-in to Dry-in, Aldora's revolutionary factory-glazing process accelerates the build cycle and delivers higher quality storefront projects versus traditional field glazing. Conquer the skilled labor shortage while also saving critical path time with each step. Put this long-accepted curtain wall standard to work for your next storefront project.
